**Subject:** caller regarding back 40

FYI

I received another call from a citizen upset about our Back 40 letter. This was from Citizen Name / Ex. 6 of Batavia Illinois. He called to express his disbelief that EPA was dropping its concerns about the mine. He said the two letters we wrote looked like they were written by different people. He believes the mine will leak eventually and contaminate the river and EPA is not doing its job to protect the environment.
